Chicaso Protective Apparel, Inc. Made in USA for 90 Years

Westex Proban® FR-7A® Flame Resistant 100 Percent Cotton Fabrics

Albright and Wilson, the leader in phosphorus flame retardant chemicals for use on cotton fabrics, first offered the PROBAN® ammonia cure process in 1960. 40 years later we have come up with a throw back idea returning PROBAN® to the 1960s while maintaining the state of the art advances made in safety. In flame testing of the fabric, Westex employs Federal

Test Method Standard 191A, Method 5903.1 a standard vertical flammability test generally accepted by military and industrial users. PROBAN®/FR-7A® fabrics are certified by Westex to retain their original flame resistance through fifty (50) home washes or twenty-five (25) industrial washes. See neck tags for proper washing instructions. Have a nice safe day.

Camouflage

Style 600-DH-(SIZE)
A '60s style camouflage jacket inspired by the movie "The Deer Hunter". You might like to wear it hunting, and then back to work again. Better yet, buy two.

Red, White and Blue

Style 600-ER-(SIZE)
Red, White and Blue says it all. Imagine your workers in this "Easy Rider" inspired '60s patriotic jacket. Pride in America never goes out of style!

Rainbow

Style 600-LW-(SIZE)
This popular rainbow tie dye jacket is a tribute to our favorite '60s song. You can call it what you like but mine is called "Little Wing" in honor of Jimi Hendrix.

Custom

Style 600-CTD-(SIZE) Select custom colors to match company logos, local schools or favorite sports team. Get creative and we'll follow your lead.
